

Nord-VET conference June 7-8th 2016 at Roskilde University

What can the Danish VET-system learn from VET in the other Nordic countries?

- VET more integrated in upper secondary education - permeability
- From Norway: The local training agencies
- From Finland: reformed UAS and skills demonstration
- From Sweden: quality system for work-based learning

Inspiration from the other Nordic countries

From all: A less selective upper secondary school

From Norway:

- postponed separation and
- opportunities for vertical transition from vocational to general track
- maintaining apprenticeship as a an opportunity for direct access to skilled employment

Improved connectivity between the two learning environments in VET

The tri-partite meetings in Swedish apprenticeship

Teacher, trainer and apprentice meet regularly in the workplace to supervise and support the student's learning process.

The skills demonstration in Finnish VET: schools, students and company collaborate on the assessment of skills in authentic environment in the training company.

Local training agencies (Norway)

Connection between vocational schools and training companies

- Matching students and training companies,
- Partner in the training contract,
- Supervises training plan and apprentices,
- Support quality of training: TtT-courses, Skills competition, etc.
